**SUMMARY OF THE REASONS FOR DECISION:**

The computer image file *Ababycum.jpg* is classified as:  
Objectionable.

The computer image file promotes and supports the exploitation of children for sexual purposes. The file contains a colour photographic image that depicts an adult male engaged in a sexual act with a baby girl, approximately a year old. The depiction is explicitly sexual. The image encourages and validates adult sexual interest in children, and strengthens the idea that children may be exploited for adult sexual use and gratification.

The provisions of the New Zealand Bill of Rights Act 1990 (NZBR Act) have been taken into account in determining this classification. As the publication falls under s3(2) of the Films, Videos, and Publications Classification Act 1993, it is deemed to be objectionable. A classification of "objectionable" places a limit on the right to the freedom of expression as set out in s14 of the NZBR Act. However, in relation to this publication, it is considered to be a reasonable limit prescribed by law that can be demonstrably justified in a free and democratic society.
